OVERVIEW

This biography chronicles James Dale's accomplishments, expertise, and journey. It showcases his dedication to his field by capturing educational achievements and pivotal career moments. Event organizers and media can use this content for promotions. Kindly retain the essence and accuracy when making edits.

Unleashing the future of mobile tech, James Dale stands at the intersection of innovation and creation. As an expert in iOS App Development, he currently leads Friday Technologies, a groundbreaking App Development studio based in Australia. James has previously co-founded the Google and BoxGroup-backed startup, 'Have a Great Summer' - a social networking product that caught Snapchat's eye, leading to an acquisition.

Not just another iOS developer, James is honoured with four coveted Apple WWDC Scholarships. James is a serial App Developer Entrepreneur with a digital arsenal that boasts transformative apps like CleanSky and RulAR.

James previously worked at Apple within the ISE Special Projects and the Machine Learning Platform & Technology teams. He played a role in sculpting the Create ML framework and the Create ML macOS app.
A true evangelist for the power of iOS and Swift, James lights up the stages at industry conferences. He shapes the next generation of tech prodigies by running Swift courses at RMIT University.

James is driven to create change in the mobile apps and machine learning spaces.
